**Bicycle Rodeo Kit** - Produced by Outdoor Publishing. Includes the Guide to Bicycle Rodeos, an easy to understand manual with directions on how to organize a bicycle rodeo, plus innovative techniques to make your rodeo a success. The kit also contains 27 plastic laminated station posters, Bicycle Reaction Test Ruler, Orange Traffic Cones, the Best Bicyclists on Earth Workbook, Certificate of Achievement, Bicycle Driver's License, Ten Little Bike Riders Brochure, Get into the Helmet Habit Brochure, and the Bike Check Card. **Contact: Injury Prevention Center, (603) 653-1135.**

**New Hampshire B.I.K.E.S. Kit** - This kit contains a variety of instructional and educational materials suitable for use in lower elementary classrooms, with youth groups, and at health and safety fairs. The NH BIKES curriculum, a "Qwiggle-Gel Brain Mold", bike helmet, a video, a skull x-ray, and assorted handouts make this a very interactive bike safety presentation. **Contact: Injury Prevention Center, (603) 653-1135 for the kit closest to you.**

**Demonstrator Air Bag** - Let people see what everyone is talking about. This Air Bag has been activated but makes a good display. **Contact: Injury Prevention Center, (603) 653-1135**

**Drowning Prevention Display Kit** - This kit contains materials for an interactive drowning prevention display suitable for use at health and safety fairs and other settings targeting families with young children. Children "fish" while parents learn about drowning prevention. Fishing activity requires water to fill the pool. Kit can be used without activity. **Contact: Injury Prevention Center, (603) 653-1135.**

**Firearm Safety Display Kit** - This Kit is designed to be used at Health and Safety Fairs or as part of a presentation on firearm safety. Contents include: banners, brochures and posters, a variety of firearm locking devices, other safety equipment, and written materials for distribution. Someone borrowing the Kit can select those materials that are appropriate for their intended audience whether they are adults, adolescents or younger children, individuals, groups. There are six Kits around the State. Available by contacting:

Nashua Public Health Department, Nashua  
Contact: Al Matkowsky, (603) 589-4508

**The GEAR UP GAMES Safety Course** consists of nine separate stations - each with a hands-on activity demonstrating a safety habit. They can be used individually or in combination depending on your needs and the availability of space and helpers. The stations include: Buckling Up; Choosing the Right Car Seat; Water Safety; Bike Helmets; Stop, Drop & Roll; Call 9-1-1; Safe Storage of Poisons; Playground Safety; and Smoke Alarm Testing. **Contact: NH SAFE KIDS, (603) 653-1135.**

**9-1-1 Kids Make the Right Call** gives kids hands-on experience in making a 9-1-1 call. It teaches children when and how to make the call. The system provides the opportunity to use real phones to speak to real EMTs to describe an imaginary emergency situation (set-up is provided). Hand-outs describing do's and don'ts are also included. **Contact: Janet Houston, EMSC, (603) 653-1131.**

**Playground Inspection Kit** - For individuals and groups interested in playground safety. The Kit contains: Surface Display Box, Resource Packet, Probe and Gauge set, "Time Out for Safety" video, "Playground Safety: Design & Maintenance" video, "Playgrounds Safe and Sound" brochure, and "Dirty Dozen" brochure. There are seven kits located around the State. Available by contacting:

Huggins Hospital - Community Affairs, Wolfeboro  
Contact: Terri Hooper, (603) 569-7564

Keene Police Department, Keene  
Contact: Jerry St. Pierre, (603) 357-9820

**Poison Prevention Display** – This display shows how easy it is to mistake medications for candy. By showing 12 pairs of look-alikes including Nicoderm® patches and band-aids, the display shows how important it is to keep all medications away from children. Information on the back makes it easy to answer questions about the medications shown. There are seven kits located around the State. Available by contacting:

St. Joseph Hospital, Nashua  
Contact: Amy Guthrie (603) 882-3000 ext. 3221

**Safe Summer Kit** - The Kit includes ideas and props for five interactive stations along with lists of what else is needed to set up the station. Each of the communities where it has been implemented has added others using local resources or other state-wide organizations. All have utilized middle or high school students to staff the stations and reinforce the messages. The five stations include:

**RIDE SAFE** – active fun where kids race to buckle up properly.

**WHEEL SAFE** – See how well helmets protect your “melon”.

**PLAY SAFE** – a race to get proper gear on to be ready to play safe!

**SWIM SAFE** – a video to show kids how to stay safe in and around the water.

**WALK SAFE** – Create a walking trail or game to teach pedestrian safety.

**For more information or to reserve contact PlusTime NH, (603) 798-5850.**

**Safe/Unsafe House** – Developed as part of Slips, Trips and Falls, a state-wide effort to reduce the risk of falls in the home, this is actually two doll houses. One shows many unsafe practices – no railings around stairs, no grab bar in the bathroom, etc; while the other shows the safe way. The house is available along with a presenter’s guide, participant materials, a variety of hand-outs and tips for interactive displays. **Contact: Rhonda Siegel, 1-800-852-3345 ext. 4700 or 271-4700.**

**Safety Street** – Kids will be able to take a walk down Safety Street with NH SAFE KIDS. This activity gives them the chance to practice Safe Walking skills in different situations. And they learn about getting on and off the bus too! Parents can brush up on their skills too while their kids have fun. Best for children in grades K-5. This kit requires both a large space to set up and a fairly large vehicle for transporting. **Contact: Injury Prevention Center, (603) 653-1135.**

**Ski and Snowboard Safety Kit** - This kit contains publications and educational materials about safe skiing and riding and includes samples of different sized ski helmets for participants to try on. While the concentration is on promoting helmet use the kit also includes information on proper clothing and the use of wrist guards by snowboarders of all ages. A jell-o brain mold, posters, a banner, and handouts are also included. This interactive kit is very popular with ski areas. **Contact: Injury Prevention Center, (603) 653-1135.**
